

## **MOBILE INDUCTION HEATER**

QUICK AND SAFE HEATING FOR WORKSHOPS AND PRODUCTION

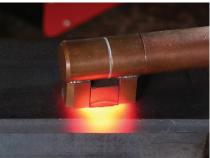

Besides, it has a timer for simply selecting desired heating time, which combined with the controlled power mode enables relati-vely accurate and repeatable heating with controlled heat introduction, i.e., heating to a set temperature. USB connector ready for potential software upgrades of the **DHI-44 LKW**.

Its high power capacity, small dimensions and light weight make the **DHI-44 LKW** ideal for workshops, car repair shops, general repairs, production, maintenance. A significant advantage of the **DHI-44 LKW** compared to other heating methods is its safety, simplicity and high speed of heating and application, particularly compared to flame heating. Moreover, the use of the **DHI-44 LKW** induction heater is clean and environmentally friendly.

TECHNICAL PARAMETERS	DHI-44E LKW
Order no.	07-003
Power supply requirements [V]	230 (180–265)
Frequency [Hz]	50/60
Consumption [A]	16
Protective system	IP22
Working frequency [kHz]	18 – 60
Output control (CP mode) [%]	10 – 100 % z P <sub>max</sub> , fluent
Induction burner length [m]	2
Input power [kW]	3,5
Output ind. power [kVA]	3,5
Power factor for 100% output	1
Dimensions [mm]	240 x 200 x 440
Weight [kg]	13,5
Coolant capacity [I]	2,5

**EN** 

# **MOBILE INDUCTION HEATER**

### QUICK AND SAFE HEATING FOR WORKSHOPS AND PRODUCTION

- Mobility weight only 13.5 kg, including water cooling,
- small dimensions size of a small welding machine.
- Output 3.5 kVA, respectively, high loading factor.
- · Easy use burner length 2 m.
- Flexibility and ease of use connects anywhere, power supply 1x 230 V, easy and quick preparation.
- Versatile uses of pre-heating for shaped, flat, circular, positioned or standard components.
- · Modern and affordable method of workshop heating.

- Automotive, railway and shipbuilding industry, production, mechanical, servicing workshops, repair shops, assembly plants, heating and plumbing, home workshops, etc.
- · Production, repair, renovation, maintenance.
- Workshops requiring heating of bolts, round steel, sections, sheets, bearings, bushes, drive shafts, hinges, nuts, pipes, cogwheels, bearing mountings, shafts, lambda probes, parts and components of machines and cars, exhaust systems, belt pulleys, sleeves, etc.
- · Heating tools and parts for hardening, gluing, soldering.
- · Defrosting.
- · Same applications as gas and oxy acetylene burners.

#### **EQUIPMENT:**

**ADVANTAGES** 

- Smooth power adjustment 10-100 %
- · Timer and factory settings features
- USB for software upgrades
- · Constant heating power (CP) mode

#### **SUPPORTED TECHNOLOGIES:**

DHS3 Dawell Heating Control System 3
BIPT Boost Induction Power Technology
DIPA Dynamic Induction Power Adjust
QST Quiet Cooling Technology

ACMS Automatic Check And Monitor System

**DFU** Device Firmware Update

**EN** 

#### **ACCESSORIES AND CONSUMABLES**

Order no.	Description
07-101	Grip extender
07-102	Focus coil, inclined
07-103	Focus coil, side
07-104	Focus coil, straight
07-107	Focus coil, round
91-003	Coolant 5 I
